

## HEALTH CERTIFICATE ANALYSIS OF CHOCOLATE WORLD MOULDS.

We hereby declare the following:

1. Our chocmoulds are made out of plastic, specifically designed to be in contact with chocolate.
2. The chocolate moulds are fashioned from polycarbonate Makrolon 2856
3. Makrolon 2856 is subject to the norms of packing materials for food industry.
4. **Regulation (EC) 1935 / 2004**  
This statement has the purpose of a declaration of compliance as required by Regulation (EC) 1935/2004. the requirements are fulfilled.

### EU Directive 2002/72/EC

With respect to its monomer and additive composition the above mentioned products complies with the requirements of the currently valid version\*) of EU Directive 2002/72/EC on "plastic materials and articles intended to come into contact with foodstuffs". (Official Journal of the European Communities no. L 220/18 of 2002). All monomers contained in the above products are listed in section A or Annex II of the amendment, respectively. Additives are either listed in Annex III or are applied for being listed and meet national requirements within the EU (until the final establishment of the additives list as an exclusive list)

\*) The 4th "Adaptation to Technical Progress" in the form of Directive 2007/19/EX appeared on 2007-03-03

5. All our moulds have been produced at our production department in Hoboken.
